

# How to Download Python

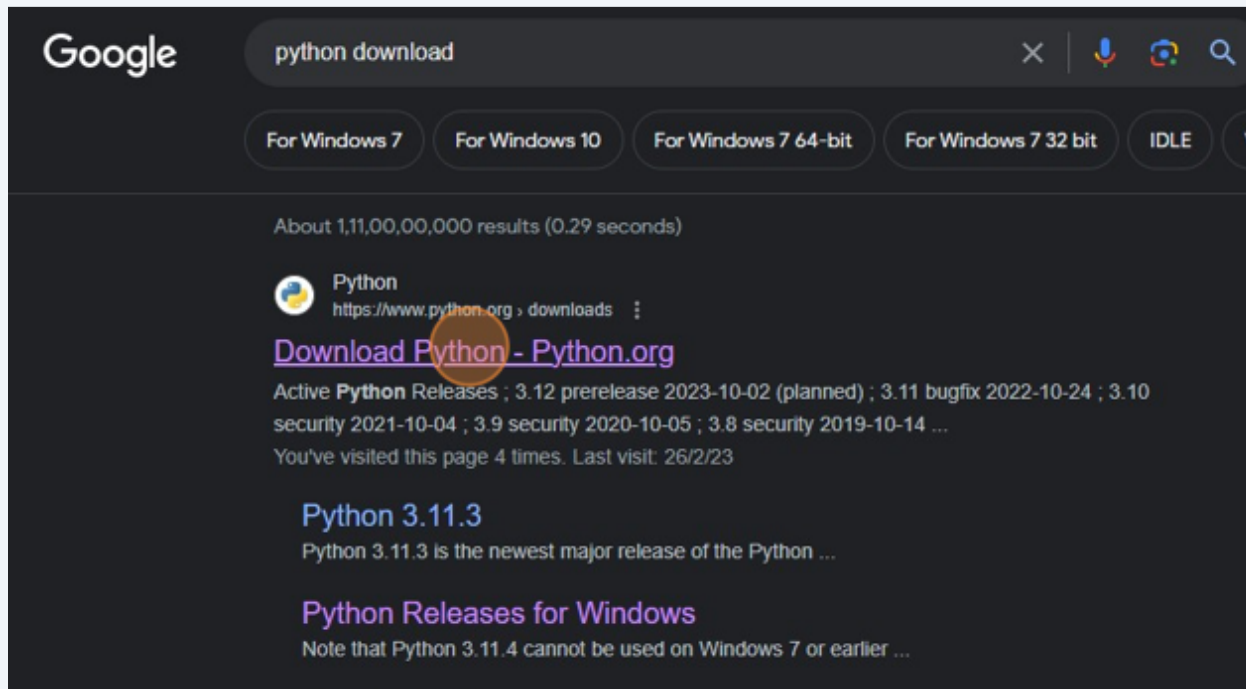

1 Navigate to [www.google.com](https://www.google.com)

2 Click this search field.

3 Type "Python download **ENTER**"

4 Click "Download Python - Python.org"

5 Click here.

A screenshot of the Python.org website. At the top, there is a banner with the text "Want to help test development versions of Python 3.12? [Prereleases](#), [Docker Images](#)". Below the banner, the section "Active Python Releases" is displayed. A link "For more information visit the Python Developer's Guide." is present. Below this link is a table with the following data:

Python version	Maintenance status	First released	End of support
3.12	prerelease	2023-10-02 (planned)	2028-10
3.11	bugfix	2022-10-24	2027-10
3.10	security	2021-10-04	2026-10
3.9	security	2020-10-05	2025-10
3.8	security	2019-10-14	2024-10
3.7	security	2018-06-27	2023-06-27

6

Click "Download Python 3.11.4" or else you can download a specific version of python, based on your requirements.
